EXCLUSIVE WEDDINGS

Photography and Cinematography

“Visual support tailored for extraordinary planners.”

Cinematic photography & film that complements your vision — in Europe and worldwide.

WHO WE ARE

We are a seasoned team of photographers and filmmakers with roots in Mexico and Latin America, where we began over two decades ago. Since then, we've captured more than 350 weddings and events across Europe and beyond.

Our deep understanding of the industry—and our ongoing collaborations with high-end wedding planners—have shaped a workflow that is refined, reliable, and remarkably adaptable.

We've seen almost everything live... yet we remain prepared for anything. Calm under pressure, flexible in every setting, and fully committed to helping each planner's vision

In Sync With Your Vision

Understanding the craft of wedding planners has helped us elevate our own. It has taught us the rhythm behind a well-designed event, the invisible structure that holds everything together, and the pressure that comes with meeting the highest expectations.

This insight allows us to move intuitively and professionally, respecting timelines, adapting with calm, and working seamlessly within your creative flow. We're not just visual artists — we're partners in making the day feel effortless for everyone involved.

Our work isn't about being seen. It's about capturing what truly deserves to be remembered.

The couple is — and will always be — our first priority. But we deeply value the creative partnership we share with planners. That's why we approach every event with dual focus: to preserve the moments that become lifelong memories for the couple, and to deliver visual content that reflects the artistry, detail, and excellence of your work.

We understand what it takes to create a high-level experience, and we're here to honor it — frame by frame.

P1 How We Collaborate With Planners

Working with us is designed to be simple, transparent, and collaborative — always with your client and your vision in mind.

1. Vendor Media Kit

Once we begin our collaboration, you'll receive our full Vendor Media Kit. It includes everything you need to present us to your clients: curated portfolio, detailed pricing, and insight into our approach.

All pricing shown to your clients will match what's listed on our website — ensuring full transparency. However, depending on the number of weddings we've worked together, you'll receive a preferred rate from us. This allows you to offer your clients a "planner's discount" while maintaining consistency and trust.

2. Partnership Agreement

You will also receive our partnership contract, which outlines everything we offer you as a planner when presenting our services. This includes:

- Commission details
- Access to selected photo/video content for your digital or print media
- Delivery timelines
- A copy of the couple's service agreement, listing full coverage details and total value

If you're managing vendor payments on behalf of your client, just let us know — we're happy to adapt.

3. Meeting the Couple

Naturally, we'll schedule a dedicated conversation with the couple. We'll talk through their vision, preferences, emotional priorities, and anything they don't want left out — down to the smallest detail. This helps us align completely and deliver with intention.

4. Ongoing Communication

From start to finish — before the wedding, during the event, and after — we'll stay in close contact with you. This ensures seamless integration, clear expectations, and the highest possible quality for everyone involved.

We view our planner relationships as long-term partnerships. That's why we take time to understand your expectations too — especially when it comes to your own visual content. Need behind-the-scenes images of your team, the setup, or design installation? We'll create a checklist in advance and make sure those moments are captured.

5. Delivery for Planners

We prioritize delivering your selected content quickly — typically within a week after the wedding — so you can share it across your platforms. If you need a specific delivery timeline, just let us know.

All photos and videos remain the intellectual property of Moises Graniel. However, you're granted unlimited usage rights for digital and print use — including publication — as long as credit is clearly given (e.g., "Photography by Moises Graniel") whenever the content is shared.

All relevant details for the couple — portfolio, packages, delivery schedules, usage rights — are clearly outlined in our Vendor Kit.

What We Offer for Our Partners

- Elegant, discreet presence throughout every stage of the event
- Cinematic photo & film coverage — including multiday celebrations
- Clear, responsive communication before, during, and after the wedding
- Full respect for your timelines, design priorities, and workflow
- Fast turnaround for preview galleries and publication-ready content
- Support for editorial submissions (Style Me Pretty, The Lane, etc.)
- Scalable team structure — from intimate elopements to full-scale productions
- Optional collaboration on styled shoots or editorials to elevate both portfolios

We don't just show up — we integrate, support, and co-create with you.

We capture behind-the-scenes and setup moments

We make sure to document key elements of your creative process — from setup to final touches — providing you with high-quality visuals that reflect your work and elevate your marketing. These images are ideal for your portfolio, website, social media, or editorial publications.

Years of experience have taught us which moments matter most to planners — from the design process to the final execution. Still, we're always happy to receive a custom briefing: whether it's specific details you'd like us to capture, key moments that showcase your work, or even planning a full A-to-Z editorial shoot for publication. Whatever you need, we're here to support it with intention and precision.

We value the strength of collaboration

We believe that great results come from great teams — and we're always excited to hear your ideas, share our vision, and start creating extraordinary work together. Whether it's a wedding, an editorial project, or something entirely new, we're ready to bring it to life with you.

Interested in partnering with us?

We'd love to connect. Whether you have questions, want to explore our commission structure, or need more details about our pricing, feel free to reach out. Let's start a conversation and discover how we can support your vision — beautifully and professionally.

Good to Know: Our Contingency Plan

We know how important it is — for both couples and planners — to have the person they trusted (Moises Graniel) present on the wedding day. While I've never had to use a backup in over two decades of work, we believe in being prepared for the unexpected.

That's why we always have a professional backup photographer on standby, to step in only if absolutely necessary.

We also work with top-tier, fully maintained gear — and always bring backup equipment to every event. If a camera is damaged or fails, we can switch instantly without compromising coverage. All cameras record to dual memory cards simultaneously (primary + backup), and once the files are downloaded, they're backed up both in the cloud and on a separate physical system.

It's not just about capturing the day — it's about protecting every memory, at every stage.
